

Racking Cough!

Neglected—often means pneumonia or consumption. There's a quick, sure cure—the old reliable
DR. BULL'S COUGH SYRUP
 IT IS INFALLIBLE. IT HAS STOOD THE TEST FOR FIFTY YEARS. IT IS HARMLESS. IT PREVENTS COMPLICATION. Miss Sara E. Williver, Philadelphia, N. J., writes: "I was troubled for months with a severe cough, which would have turned to consumption but for the timely use of Dr. Bull's Cough Syrup."

AVOID CHEAP SUBSTITUTES.

Do not accept cheap substitutes offered by unreliable dealers, who are thinking of large profits only. ASK FOR THE OLD RELIABLE "DR. BULL'S COUGH SYRUP." SEE THAT YOU GET IT; also see that the "BULL'S HEAD" is on the package.
SMALL DOSE. PLEASANT TO TAKE.
 Doctors everywhere prescribe it and all hospitals use it exclusively in cases of coughs, colds, hoarseness, croup, bronchitis and all affections of the throat. It cures quickly and permanently. Thousands of testimonials are received from grateful patients who have been cured by "Dr. Bull's Cough Syrup."

MONDAY EVENING, APRIL 4, 1904.

Found Fun in Death.
 The inquest before the Coroner's jury in Wilkesbarre, Pa., yesterday into the poisoning of Annie Owens and Ida Moore revealed features which caused the jury to censure Christopher Nolan, with whom the girls were in love, for not preventing the suicide of Annie Owens. It was shown that the Owens girl killed herself by taking poison, but who gave the poison to the Moore girl is still a mystery. She declares she suspects no one, and says that Nolan is not the kind of man to try to kill her. The testimony showed that several persons saw the Owens girl taking laudanum. At the table in the saloon where she sat, three persons saw her pour it into her glass and take it. Nolan, who was sitting at another table, was told by William McAvoy that the girl was taking poison, but Nolan told him to go away and did not interfere. While in the hallway, John Carr and another man saw her empty the poison bottle. Carr moved away. The other man shouted: "Stay and see the fun; she's taken it." The next minute the girl fell unconscious.

Is Crime Increasing?
 Few social questions are asked more frequently than, What is the increase of crime? The national Census Bureau is seeking an answer to this inquiry. It is undertaking to secure a record of all the persons who are sentenced to the various jails, penitentiaries, and other prisons in the United States during the year 1904. The wardens of the State prisons and the sheriffs of the counties are being requested to act as special agents to report certain facts concerning every person delivered into their custody. Some counties have not been heard from. In some perhaps there are no jails, in others perhaps the local jails are no longer used, in still others the sheriffs have possibly neglected the matter. But the records of the Census Bureau and the resulting statistics will not be complete until all are heard from, and it is hoped that the pressure of other business will not cause the sheriff of any county to block this most important inquiry.

Spying on Labor Unions.
 Labor unions have been considerably disturbed by the reported exposure of a Cleveland company, known as the Employers' Auxiliary Company, through the efforts of the Gieray (Kan.) Appeal to Reason, the socialistic weekly. A man was sent by this paper representing himself to be a western manufacturer in fear of union domination. He claims to have found that this company was making a systematic business of getting men into unions wherever trouble was expected and paying them to act as informants. He also claims to have seen the letters of Senators Hanna, Foraker and other prominent men endorsing the work of this bureau. That this spying has been going on for some time is said to be known to prominent union leaders, some of whom are said to be in the pay of big corporations. Further disclosures are expected.

Horrors of Cancer Found in the Corset.
 Dr. R. C. Lucas, an eminent London specialist, has added a new count to the indictment against the corset. He declares, in the Lancet, it is, under certain circumstances, responsible for cancer. Three cases have come under the doctor's notice in which cancer in women started at a point where the edge of the corset crosses the edge of the big muscle of the chest. In describing two of them he says: "The cancer developed on the right side in each case, and in women whose occupations led them to undue use of the right arm, and in consequence to excessive friction of the corset at this spot is, therefore the cause of a cancerous process developing in this situation, and to express this fact I have given it the name of corset cancer."

Druggist Must Obey Law.
 The commission of the revenue of Richmond will notify all druggists there that druggist who use whiskey in compounding prescriptions or who sell alcoholic bitters must get out the regular retail whiskey dealer's license. This license costs \$350. After consultation with the attorney general and the city attorney, A. O. Hawkins, the commissioner declared that the law was plain and that he would enforce it to the letter. The announcement has created consternation among druggists.

Nasal Catarrh quickly yields to treatment by Ely's Cream Balm, which is agreeably antiseptic. It is received through the nostrils, cleanses and heals the whole surface over which it diffuses itself. A remedy for Nasal Catarrh which is drying or exciting to the diseased membrane should not be used. Cream Balm is recognized as a specific. Price, 50 cents at druggists or by mail. A cold in the head immediately disappears when Cream Balm is used. Ely Brothers, 50 Warren street, New York.

A Cure for Headache.
 Any man, woman or child suffering from headache, biliousness or a dull, drowsy feeling should take one or two of DeWitt's Little Early Risers night and morning. These famous little pills are famous because they are a tonic as well as a pill. While they cleanse the system they strengthen and rebuild it by their tonic effect upon the liver and bowels. Sold by all druggists.

Robbed the Grave.
 A startling incident is narrated by John Oliver, of Philadelphia, as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to use Electric Bitters; to my great joy the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed the grave of another victim." No one should fail to try them. Only 50c, guaranteed at E. S. Leadbeater & Sons' drug store.

FOR OVER SIXTY YEARS
 AN OLD AND WELL-TRIED REMEDY—Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for Diarrhoea. Is pleasant to the taste. Sold by druggists in every part of the world. Beware of cheap imitations. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.

 FAT MACKEREL or sale at 5c, 10c, 15c and 20c each by J. C. MILBURN.

We Paid \$100,000

For Ligozone—Yet We Give You a 50c. Bottle Free.

This company, after testing Ligozone for two years in the most difficult germ diseases, paid \$100,000 for the United States' rights. That is by far the highest price ever paid for similar rights on any scientific discovery.
 We publish this fact to show you the value of Ligozone. The most worthless product may have great claims made about it; but men don't pay a price like that save for a discovery of remarkable worth to humanity.

Kills Inside Germs.

Ligozone alone kills germs in the body without killing the tissues, too. It is so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill. Ligozone destroys at once and forever the cause of any germ disease, and there is no other way to do it. Any drug that kills germs is a poison to you, and it cannot be taken internally. Ligozone alone can attack a trouble that is caused by inside germs; and it cures diseases which medicine never cures.

Liquid Oxygen.

Ligozone is simply liquid oxygen—no drugs, no alcohol in it. It is the discovery of Paul, the great German chemist, who spent 20 years on it. His object was to get such an excess of oxygen in staple

form into the blood that no germ could live in any membrane or tissue.
 Ligozone does that. Oxygen is Nature's greatest tonic—the very source of vitality. Its effects are exhilarating—purifying, vitalizing. Nothing else in the world is so good for you. But germs are the enemy of vitality, and the excess of oxygen—the very life of an animal—is deadly to vegetable matter.
 We spend 14 days in making each bottle of Ligozone; but the result is liquid oxygen—a product which will cure diseases which no medical skill can cure without it. It is the only remedy in every great hospital and indorsed by every medical authority, the world over.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Ligozone kills the germs, wherever they are, and the results are inevitable. By destroying the cause of the trouble, it invariably ends the disease, and forever.
 Hay Fever—Influenza
 Asthma—Anemia
 Rheumatism—Kidney Diseases
 Bronchitis—La Grippe
 Blood Poison—Leucorrhea
 Stomach Disease—Liver Troubles
